SUMMARY

B.Tech graduate in AI & Data Science with a published IEEE paper and hands-on work in ensemble ML, time series forecasting, and computer vision. I'm actively looking to join a team where I can apply machine learning to solve real-world problems building systems that are both interpretable and impactful .

EDUCATION

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science & Technology <i>Bachelor of Technology in Artificial Intelligence & Data Science</i>	Chennai, India Aug 2022 – Sep 2026
St Joseph's Higher Secondary School <i>Higher Secondary Certificate, Computer Science</i>	Cuddalore, India June 2020 – March 2022

TECHNICAL SKILLS

Programming Languages: Python, SQL
AI/ML Frameworks: XGBoost, Ensemble , ARIMA, Scikit-learn, TensorFlow/Keras, PyTorch, OpenCV, RAG
Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Excel
Tools & Platforms: Git, GitHub, Jupyter Notebook, Google Colab, VS Code
Core Competencies: Machine Learning, Deep Learning, Computer Vision, NLP, LLMs, Time Series Forecasting, Statistical Analysis

PROJECTS

Hybrid Meta-Ensemble Framework for Road Accident Risk Prediction <i>Random Forest, XGBoost, Logistic Regression, SHAP, LIME</i>	Python, Ensemble Learning
- Built hybrid meta-ensemble accident prediction model using Random Forest, and XGBoost with Logistic Regression stacking for enhanced accuracy - Improved prediction performance on heterogeneous tabular data and analyzed feature importance using SHAP and LIME for model interpretability - Designed scalable and interpretable solution for proactive road safety and traffic risk management applications	
AI-Based Crop Yield Prediction System <i>Regression Modeling, Feature Selection, Data Preprocessing</i>	Python, XGBoost, Agricultural Analytics
- Developed XGBoost regression model leveraging historical yield data, weather patterns, and soil parameters for accurate crop yield forecasting - Performed comprehensive data preprocessing and feature selection to identify key predictors of agricultural output - Implemented hyperparameter tuning strategies to optimize model performance for agricultural planning	

EXPERIENCE & LEADERSHIP

Technical Event Coordinator <i>Student Leadership, Event Management</i>	Vel Tech University
Coordinated technical events and workshops fostering innovation and collaboration among 200+ students	
Workshop Participant <i>IoT and Robotics Workshop</i>	IIT Madras
Attended hands-on workshop on building robot cars using IoT sensors and embedded systems	

CERTIFICATIONS & ACHIEVEMENTS

Tata GenAI Powered Data Analytics Job Simulation - Completed hands-on simulation in AI-driven analytics
IEEE Published Research - Contributed to peer-reviewed conference publication in IoT and AI domain
Open-Source Contributor - Contributed to Coffy project on GitHub with code improvements

LANGUAGES

English: Professional Proficiency | **Tamil:** Native | **Hindi:** Conversational

ADDITIONAL INFORMATION

Interests: AI Development, Prompt Engineering, Data Analytics, Machine Learning Research, Computer Vision, Open-Source Development
